

# SEE AND BE SEEN IN EVERY SITUATION

In emergency situations of heavy smoke, poor lighting and visibility conditions, the NH15 provides a clear range of vision. The reflective label on the hood allows users to be easily seen by rescue teams with emergency lighting.

# COMPACT FOR QUICK ACCESS AND USE

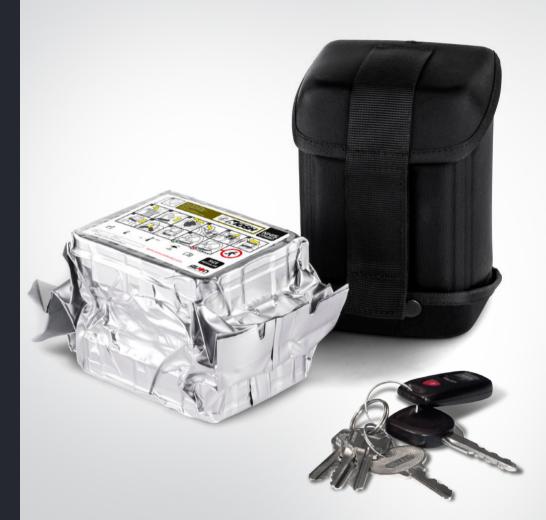

Other escape hoods are bulky and cumbersome. The Avon NH15 features low-profile filters for reduced snagging, and reduced delay in donning. The streamlined design minimizes the potential for grabbing when used in confined areas with anxious people.

# FIT AND COMFORT

The close fit filters combined with a self adjusting harness provide the user with increased comfort and the security of a correctly fitted hood.

# WE REDUCED THE SIZE. NOT THE PROTECTION.

\*The image above represents the NIOSH Standard Carrier

#### DON IN LESS THAN 30 SECONDS

Achieve critical CBRN respiratory protection within 30 seconds of opening the protective packaging and donning the reflective hood.

#### IS MINUTES OF PROTECTION

Provides wearers with respiratory, vision and facial CBRN protection for a minimum 15 minutes to allow sufficient time to evacuate from a contaminated area.

#### 5 YEAR SHELF LIFE

With minimal packaging, no maintenance, and low cost of ownership, the NH15 can provide 5 years of maintenancefree protection.

**USER TRAINING** 

The Avon NH15 contains a quick-don label to guide user in an emergency situation.

To support the introduction of the NH15 into an organization, simple posters provide a constant message to users on the correct operation.

A training hood is available for end-user training. Can be used for multiple training courses.

CD and Training Presentation available for initial user training and new user education on the "do's and don'ts" of using the Avon NH15.

#### AFFORDABLE PROTECTION

- NO annual fit test requirements
- The Avon NH15 is vacuum-packed in a multilayer barrier bag that provides 5 years of shelf life
- NO maintenance or inspection requirements
- Protect more people with your budget

#### IDEAL FOR:

- Oil Refineries
- Chemical Facilities
- General Industrial Applications
- Truck/Transportation

#### Industries

- Mining/Drilling Applications
- Executive Protection
