**Med Sled® MS30 Tactical Sled** is designed for fast extraction from difficult areas and situations. (Not designed for stairwell evacuations. See Evacuation Sleds on page 2-3.)

- + **Dramatically reduces** the effort of moving wounded casualties
- + **Hands-free** tether around waist or shoulder allows for carrying equipment or return fire
- + **Patented design provides stabilization** - can be used with a backboard or Stokes Basket
- + **Slides easily** for safe and immediate extraction
  - **Compact** -- carry bag (30" x 6") with shoulder strap included
  - **Lightweight** -- only 6 lbs!
  - **Durable** -- made of high density polyethylene that helps protect person while transporting

#MS30 Med Sled® Tactical Sled 30"W x 87"L

SLED AVAILABLE IN CUSTOM COLORS.  
CALL FOR DETAILS.

"...The Med Sled® worked exactly as designed, allowing healthcare providers to evacuate non-ambulatory patients when time was critical."
