

The science behind Scotchgard™ Anti-Fog Technology.

The facts are clear:

- Scotchgard™ Anti-Fog Coating **lasts longer** than traditional anti-fog coatings,* helping to increase eyewear performance in wet and steamy environments
- Workers may enjoy reliable, clearer sight longer, because the coating, with its active ingredient, is bonded to the lens
- The coating **retains its effectiveness** for at least 25 washings, allowing workers to wear their eyewear longer
- The coating **can be disinfected** with diluted bleach soaking or alcohol wipes without losing its anti-fog performance
- Workers can **feel confident** wearing Scotchgard™ Anti-Fog coated eyewear because it meets the requirements of ANSI Z87.1 and CSA Z94.3

* Based on 3M internal testing per EN168 test method when compared with traditional anti-fog coatings.
