

Oil

Light Duty

Ultimate performance and comfort for oily environments

- Proprietary coating blocks oil and lubricants from making contact with the wearer's skin resulting in improved hand health and enhanced comfort
- Patented grip feature uses microscopic channels to wick away oil & moisture from the surface of parts or tools, ensuring safe, secure and effective glove contact, reducing risk of slippage
- Superior ergonomic hand shape for a more comfortable fit and greater dexterity

Industries

- Automotive
- Machinery and Equipment
- Chemical

Applications

- Assembly & inspection of components
- Assembly and disassembly of equipment
- Assembling and mounting components
- Inspection (picking, checking and marking)
- Mounting and dismantling
- Handling outgoing goods: cans, vessels, bulkpack and cartons
- Loading trucks & vehicles
- Product shipping, transport and delivery

Key Features

- 11-925 is the first ultra-light weight HyFlex® style to combine a ¾ dip geometry, oil repellence and oil grip into a highly dexterous, high comfort glove
- HyFlex 11-925 features Ansell's proprietary grip technology providing reduced risk of slippage in dynamic environments
- The liner is constructed with fine gauge nylon/ spandex yarn providing the user with an unrestricted second skin feel
- This unique blend of protection, performance and flexibility bridges the gap from previous generations of ¾ dip oil repellent general purpose gloves, delivering enhanced flexibility, tactility, oil grip and extreme comfort

Sensitisers

- Zinc Dibutyldithiocarbamate

Only a very small number of users may be sensitized to this ingredient in the glove and hence may develop irritant and/or allergic contact reactions.
