

Integrity. Value. Performance.

When it comes to protection, Tempo leads the way. We combine the finest quality products with the latest technology to offer you tomorrow's protection, today. The Uno®-L is designed for year-round wear. The Uno® III provides excellent alarm time and cold weather protection.

Always wear Pbi®
ply toward heat
and flame.

UNO® -L

UNO® III

Both Tempo hoods exceed
NFPA Interface requirements.
Specific hood test
results are available
upon request.

TEMPO UNO L AND UNO III BALACLAVA FIREFIGHTING HOOD SPECIFICATIONS

A. Dual ply tubular rib knitted seamless construction (both hoods).

UNO L: Nomex III (external) and Nomex III (internal).

UNO III: PBI blend (external) and Nomex III (internal).

B. Form fitting rib knit comfort, one size fits all (both hoods).

C. Weight: UNO L: approximately 5 ounces.

UNO III: approximately 6 ounces.

D. Front and back extensions to protect entire neck (both hoods).

E. Single ply crown to prevent bulk under helmet (both hoods).

F. Reinforced adjustable face opening allows for positive face mask seal when worn properly with breathing apparatus (both hoods).

G. Test results available upon request. For best results hand wash, dry flat.

H. All Tempo hoods are designed to provide limited interface protection as described in NFPA when worn properly.

NFPA Thermal Protective Performance (TPP) test results. Exposed to a thermal flux of 2.0 cal/cm² sec.

Average of two (2) samples:	UNO L	UNO III
Before wash:	>60	>60
After wash:	>60	>60

NOTE: Interface Components require a minimum TPP Rating of 20.

Important user information:

Always place hood around neck through reinforced face opening before putting turnout coat on. From this position you can pull hood up over head when needed and adjust face opening to your individual needs.

When using a face mask breathing apparatus, always place mask on first to guarantee air seal, then pull hood up over head strap and adjust hood around face mask.

Both Tempo Hoods exceed NFPA interface requirements. Specific hood test results are available on request. Union Made in the U.S.A.
