

Personal Eyewash

Product description

Honeywell Personal Eyewash Products utilise a preserved, buffered, saline solution that is sterile and superior to tap water for emergency eye care.

Unlike tap water that may contain contaminants that can further irritate or damage the eyes, saline solution is purified, and physiologically balanced to pH and salinity of human tears.

The saline solution is offered in factory sealed personal eyewash bottles

FEATURES

- Eye saline is a preserved, buffered, saline solution.
- Easy open top is tamper resistant, yet easily removed in an emergency.
- Absence of tab indicates prior use or tampering.
- Extended flow nozzles on 16oz (473ml) & 32 oz (946ml) containers, provide longer flow than conventional 16 and 32 oz. containers.
- Deliver drops or an irrigating stream of solution, depending on the squeeze pressure applied to the bottle.

APPLICATIONS

- For flushing or irrigating the eyes to remove loose foreign material, air pollutants, or chlorinated water.

Technical Details

Active Ingredient:	Sterile Water : 99%
Inactive Ingredients:	Sodium chloride, sodium phosphate dibasic, sodium phosphate monobasic
Shelf Life:	All Honeywell saline has a shelf life of 36 months from date of manufacture

Standards

Quality assured manufacturing ensures quality and lasting value with FDA grade polyethylene bottles featuring lot numbers and expiration dates.
