

RSP

Pediatric spider straps system for spine board

RSP full body restraint belts are aids used to immobilise patients on Spencer spine boards.

Specific features

- Extremely resistant and robust system
- Strap closures to make rescue operations faster
- Integrated measuring tape to measure the height of the patient, specifically designed to be used with the paediatric spine board Baby-Go
- Sliding transversal bands for greater versatility
- Reflective insert in the texture of the belt

Technical data

Central belt length	750 mm
Minimum length "V" belts	420 mm
Maximum length "V" belts	610 mm
Minimum width	520 mm
Maximum width	610 mm
Integrated measuring tape range	1500 mm
Material	Polypropylene/Nylon
Weight	350 g
Number of belts	10
Fastening type	Strap

Class I MD compliant with UE Reg. 2017/745

RSP –IMMOBILIZATION BELTS
PEDIATRIC BACKBOARD

ST02018A

CND classification V9099

Registration number 99844
