

Heavy Duty

Special Purpose

## Designed to meet extreme conditions in the oilfield

- The 97-210 impact, barrier, grip glove is designed to meet the extreme conditions of the rig floor, rig services and hydraulic fracking, the toughest conditions in the oilfield.
- With lab tested state-of-the-art impact protection on the back-of-the-hand, the glove also provides technologically advanced “enhance grip” pads in strategic palm pressure points and a waterproof barrier to protect hands from fluids encountered in the upstream environment.
- The glove will provide oily, dry and wet grip, cut protection, abrasion and protection from oil and water penetration.

### Industries

- Mining
- Oil processing and refining

### Applications

- Fracking crews
- Roughnecks/rig floor
- Pressure pumping
- Roustabout/rig service

### Performance Profile

- The global oil and gas industry is a 24/7/365 ambient industry that pushes both workers and their PPE to the limit. With the R&D capabilities of the world's largest glove manufacturer, Ansell designs gloves around the experiences and input from hundreds of oil and gas workers around the world.
- The 97-210 impact/barrier/grip provides workers laboratory-tested best-in-class impact protection, a waterproof barrier to protect the hand from oilfield fluids and technologically advanced grip support at strategic pressure points. The glove maintains the comfort and dexterity oil and gas industry expects from ActivArm.

### Key Features

- Grip equals safety. Poor grip when handling wet or oil-coated objects increases risk of injury.
- Waterproof barrier for protection from oilfield liquid penetration.
- Lab-tested best-in-class impact protection.
- Designed to enhance safety and productivity in the challenging environment of drilling and production.
