TECHNICAL DATA SHEET-TYGASIL SA 1078/960

[FABRICS CONTAIN NEITHER ASBESTOS NOR RESPIRABLE FIBRES]

Description	Woven Silica Fabric - Satin Weave
Thickness	1.4 mm
Weight	1250 gm/m^2
Width	910 mm
Nominal roll length	50 m
Temperature - Short term usage - Continuous operation	 1600°C 950°C
Silica content (minimum)	96 %
Recommended Applications	• Welding spatter protection • Stress relieving blankets • Flexible connectors • Furnace curtains • Cable & hose protection • Gasket materials in valves
