Features: Multiple mounting options for outdoor application. Convex mirrors come with our advanced mounting hardware kit for easier mounting. Larger mirror diameter of 26" and above being used outside may require "Double Hardware" for safe mounting (call for pricing).

Specifications: Made from shatter resistant acrylic. Our most popular mirror, shatter resistant, excellent clarity. Made of a lightweight material that offers superb reflection, similar to that of mirrored glass. Highly flexible material that does not yellow or discolor from sun exposure. Durable against impacts, dents and scratches. Optically clearer than polycarbonate and less costly. Recyclable for sustainability.

Backing: Models above have ABS backing
