

# 1 Drum Shelf for Horizontal Drum Stacking System, Yellow - 1608

## Product Images

## Short Description

---

When used in combination with spill containment platforms, these products form a drum stacking system that meets EPA Secondary Containment Storage requirements (40 CFR 264.175).

## Description

---

This Poly Drum Shelf (Model 1608) is constructed of high density polyethylene (HDPE) and attaches easily to the Eagle Horizontal Drum Stacking System Drum Containment System. The Eagle Horizontal Drum Stacking System Drum Containment System is used in combination with Eagle spill containment platforms. All components (Model 1605 Cradle, 1606 Single Stacker, 1607 Double Stacker, 1608 Shelf, 1645 4 Drum Pallet, 1632 Drum Modular Platform) are 100 percent HDPE and are designed to lock into spill grating for stable drum storage and are ideal for chemical storage and dispensing. The shelf (Model 1608) attaches easily and allows for filling multiple containers at once.

# Specifications

---

Model No	1608
Color	Yellow
UPC	048441000265
Load Capacity, lbs	100
Load Capacity, kgs	45.4
Drain	No
Material Specifications	High-Density-Polyethylene
Dimensions, Exterior	19W x 23D x 19H
Pallet Quantity	1
Net Weight, lbs	15
Net Weight, kgs	6.8
SPCC Compliance	Yes
