

Fire Blankets and Burn Management

When Seconds Count

In a severe burn emergency, every second is critical. With the right first response, you could be saving a life. Water-Jel Fire Blankets can do just that and they do more than dry fire blankets.

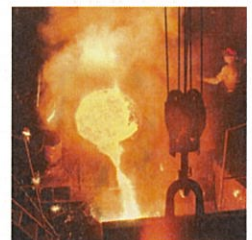

- Immediately extinguishes flames
- Cools, covers, protects burn injuries
- Relieves pain
- Helps stop the thermal insult to the skin
- Stabilizes the burn patient for transport to a hospital or burn center
- Provides a consistent Standard of Care for burns
- Pre-saturated with Water-Jel's new clear, lightweight, fragrance-free gel that consists of 96% water
- Clear gel allows clear visual assessment of burn injuries
- 100% wool with a special intercellular weave that absorbs and retains the gel up to 13 times its own weight

First Response, Safety and Preparedness

- Designed for areas with high heat, flames, arc flash, explosion, hot materials and liquid, steam, chemicals
- Used by fire rescue, EMS, manufacturing, petrochemical, electric/gas utilities, foundries, law enforcement, military teams worldwide
- Can also be used to smother small fires and protect a rescuer from heat and flames
- Registered FDA medical devices – do not contain drugs/active ingredients
